INFRA PROJECTS

Total Excavation Solutions

Introduction :

SVB INFRA PROJECTS is a 3rd generation family run business, SVB has been managing earthmoving projects since 2003. Based in Bangalore, we provide a fast, flexible, reliable and professional service statewide. We offer contract earthmoving services across the state providing a professional and reliable service to the main and sub contract civil engineering sector. We have had over 15 years' experience for total excavation solution. We work with some of the biggest names in construction and civil engineering sector.

Safety First :

Health & Safety is always without question the key element and overriding consideration when planning and implementing any project. Our Health and Safety Managers continuously evaluate and monitor our work practices and systems for the assessment and control of risk. This allows the required changes to evolve with the progression of the works without hindering production and meeting the project deadline.

Our Quality :

SVB Infra Projects is an organization committed to quality work and safety at work Environment. Our reputation has been built on high quality workmanship and continued commitment to excellence. Our customers are our first priority and we strive to complete all of our jobs in a timely and cost effective manner. We believe in doing it right the first time and therefore avoid taking any shortcuts. We SVB INFRA PROJECTS have a long running success of meeting the demands of our customers for a complete site preparation solutions. We are constantly making investments in our fleet and staff. Our ethos has been striving for repeat business from our clients, promoting consistent good workmanship throughout.

About Our Staff :

SVB INFRA PROJECTS is proud to have 9+ years of experienced most friendly, skilled and professional staff, offering fully trained operators, drivers and fitters and attention to detail and customer satisfaction is always our to priority. Our outstanding employees devote 100% of the time to the operation of the company.

The team is headed by our Contracts Manager along with a team of Surveyors, Health and Safety Manager, Site Managers and General Foremen.

Our Company is committed to :

- We aim to undertake all contract works with a partnership approach with our clients. Our aim is to tender a price which is a true and realistic representation of the final value of the works.
- Constantly seeking technical solutions to improve services and reduce end user pricing without effecting quality.
- Consistency and liability which will continue to form the bases of all business alliance and practices.
- Whatever the project, you can rely on SVB INFRA PROJECTS to supply the best machinery and workforce for the job, when and where you need them.

Machinery list :

Starting out with only one JCB 3D, we now keep a well maintained fleet of trucks and equipment. We are always upgrading to the newest models with the best technology in order to maintain the quality, reliability and safety that our reputation was built on in our industry.

We have our own workshops and mobile service units with fully qualified mechanical technicians. Keeping machine down time to a minimum & maximize output.
